

CBR-SMD RF COG, Ceramic, 1.9 pF, +/-0.25 pF, 50 VDC, COG, SMD, Fixed, RF, Ultra High Q, Low ESR, Class I, 0805

Click here for the 3D model.

| General Information      |                                                   |
|--------------------------|---------------------------------------------------|
| Series                   | CBR-SMD RF COG                                    |
| Style                    | SMD Chip                                          |
| Description              | SMD, Fixed, RF, Ultra High Q,<br>Low ESR, Class I |
| Features                 | Ultra High Q, Low ESR, Class I                    |
| RoHS                     | Yes                                               |
| Termination              | Tin                                               |
| Marking                  | No                                                |
| AEC-Q200                 | No                                                |
| Typical Component Weight | 12.03 mg                                          |
| Notes                    | Solder Wave or Solder Reflow.                     |
| Shelf Life               | 78 Weeks                                          |
| MSL                      | 1                                                 |

| Dimensions |                 |
|------------|-----------------|
| Chip Size  | 0805            |
| L          | 2mm +/-0.2mm    |
| W          | 1.25mm +/-0.2mm |
| Т          | 0.85mm +/-0.1mm |
| В          | 0.5mm +/-0.2mm  |

4000

T&R, 180mm, Plastic Tape

| Specifications                  |                     |
|---------------------------------|---------------------|
| Capacitance                     | 1.9 pF              |
| Tolerance                       | +/-0.25 pF          |
| Voltage DC                      | 50 VDC              |
| Dielectric Withstanding Voltage | 125 VDC             |
| Temperature Range               | -55/+125°C          |
| Temp. Coefficient               | COG                 |
| Dissipation Factor              | 0.228%              |
| Aging Rate                      | 0% Loss/Decade Hour |
| Insulation Resistance           | 10 GOhms            |
| Quality Factor                  | 438                 |
